By the time the summer is over, my goal is to add \$500 to my savings account. And, a few odd jobs during the fall and winter can drive that number even higher.

You may not want to do what I do to earn money, but find something you can do that you enjoy and get started right away. You'll see your savings balance grow like a weed! Get it?

Hello Penny,
Just wanted to let you know that your podcasts are really helping me understand more about money and giving me ideas on how to earn money. When it comes to chores around our house, can you tell me how many chores I should do without being paid compared to the ones I'm paid for? That would help me a lot. Thanks!
